Re-organization of Ticket Checking Squads
and handship to CFI In-charge of Squad.

Dear Sir,

Since the formation of ADI Division 10 Ticket Checking Squads were headquartered at ADI, PRU, VG, MSH, CIM and KLL consisting 11 ticket checking staff including CFI In-charge. These Squads were re-organized and reduced to 07 with increased of staff from 11 to 15. The reason for re-organization of the Squads is not known, however, Union is of the view that the checking squads have important role to increase window earnings and saving through ticketless travelling public and this is possible by working of these Squads spreaded over the Division. The Divisional earning through these Squads is evidence for their performance in the earlier shape.

In addition to this, with this re-organization of the Squad, the orders are issued to keep EFT and working as ticket checking staff by CFI In-charge of the Squads. Further to this, the earlier orders revised in violation of the Railway Board's policy. Now in the present system, the CFI In-charge of the Squads are working as ticket checking staff and also responsible for their own earning in addition to responsibility of each member of his Squad and other miscellaneous work pertains to I/charge. The system has made over burdening these CFIs.

In view of the above, it is desired :-

- (1) To examine comparative performance between earlier and re-organized squad pattern with respect to earning.
- (2) The CFI in-charge of the Squad are required to be off loaded and the EFTs should be withdrawn from them by giving over all responsibility of the Squad as per earlier pattern.
- (3) The decision of the Custodian of the EFTs which is switched over to CFI (SL) ADI is also required to be reviewed as per earlier pattern because this has further increased work load to CFI (SL) ADI.

Action taken be advised.

Divisional Secretary,
WREU ADI
